

Portfolio of Government Engagement Opportunities

Join us for these content-rich symposiums designed to educate government attendees and provide Feds with an opportunity to conduct valuable market research on cutting-edge products and solutions. In addition, government, academic and industry attendees will participate in face-to-face collaborate sessions on emerging technology challenges facing the federal government. All events listed below will be held at the Marriott Metro Center in Washington, D.C. For more information, e-mail partners@atarc.org
