The Advanced Technology Academic Research Center is a 501(c)(3) non-profit organization that provides a collaborative forum for Federal government (IC, DoD & Civilian), academia and industry to identify, discuss and resolve emerging technology challenges.

ATARC drives collaboration between government, academia and private industry in order to accelerate public sector adoption of emerging technologies.

ATARC Federal symposiums are one-day events designed to educate Federal IT practitioners about the latest developments in emerging technologies. These events combine keynote presentations, panel discussions and collaborative sessions with networking in order to encourage teamwork between government, academia and industry. Please visit the following site for up to date summit agendas: [ATARC Federal IT Summits](#)

Thank You
