GOVERNMENT PARTICIPATION

Year after year, government participation at GITEC has been at a steady rise. Historically, we have seen 50%+ government attendees, representing approximately 60 federal and state agencies and sub-agencies.

Don't miss out on advantages your competitors are taking!

NETWORKING

All Sponsors will be provided an exhibitor table, so companies can reach attendees. More print and digital media marketing is included in all sponsorships. More time is built in the agenda for touring the exhibition space. Wider audience is reached through hybrid features, live-stream programming, and post-event recording distributions. Higher government registration allows for better access to senior government thought leaders and decision-makers.

Join GITEC to promote your company as thought leaders in the Federal IT market!

ATARC – GITEC PARTNERSHIP

ATARC and GITEC, two complementary organizations, have joined forces to bring together their Civilian, DoD and Intelligence Community engagement with Fortune 1000, MITRE and academic participation.

With ATARC, benefit from a more meaningful year-round interaction with your government prospects!

* Session opening greeting, keynote introductions and panel seats are available on a first-come, first-serve basis

** 30-second commercial video during general session provided by sponsoring company
