

SECURE 5G WORKING GROUP CHARTER

Mission Statement

The mission of the Secure 5G Working Group is to advance communication between Government, industry, and academia, through identifying Secure 5G infrastructure and policies.

Context

5G is opening the door to many emerging technologies that will be game-changing for the Government. Ultimately, agencies want to achieve the many benefits of fast and reliable 5G while operating through trusted networks. Securing 5G involves identifying and addressing threats to infrastructure, supply chain, and networks, while also standardizing policies and environments to ensure a frictionless user experience.

Scope

The scope of the Secure 5G Working Group includes:

- Public and private Secure 5G networks
- Strategies and tools to improve 5G security
- Implications of virtualization of networks and deployment architectures
- Infrastructure, convergence, reliability, and resilience

Objective

The objective of the Secure 5G Working Group is to identify minimum requirements for 5G security network architecture, including convergence, reliability, resilience, and policies.

Deliverables

The Secure 5G Working Group will develop recommendations for the Government to address 5G Security best practices and use cases. Formats for the deliverables may include but are not limited to White Papers, guide books, reference documents, and events.
