

Total Mission Automation.

Continuum addresses the full spectrum of automation — modernize, build, and secure at mission speed.

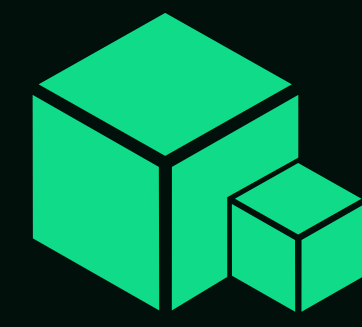

CONTINUUM
AUTOMATION FRAMEWORK

Continuum^{AF} enables Agencies to operate in **total compliance** with all Executive Orders and policies.

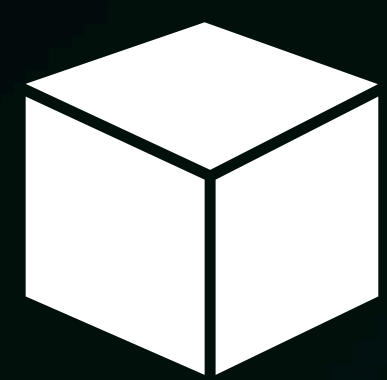

Modernize, build, migrate & secure mission systems

Modular by design to address your mission

Shared intelligence and automation patterns

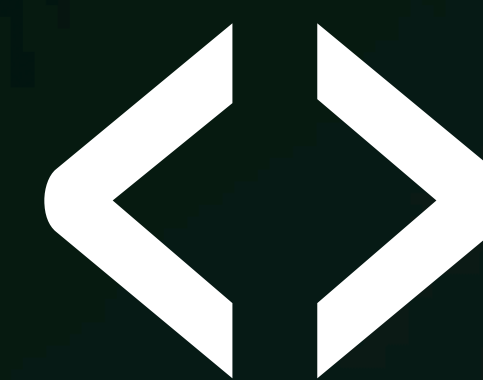

CONTINUUM
DESIGN

Concept to Prototype in Hours.

Build, design, and deliver modern business systems in days; multiplying productivity, lowering costs, and meeting evolving needs.

30%+ faster dev time

Prototype in **hours**

CONTINUUM
CODE

Modernize Legacy Code 4X Faster.

Modernize any code, any system to future-proof legacy software with speed, precision, and mathematical accuracy.

75% faster delivery

75% cost savings

Alpha Omega's Fast Path to Procurement provides a streamlined acquisition ecosystem consisting of pre-competes, readily awardable solutions accessible through CSOs, OTAs, SBIR, and multiple commercial marketplaces to meet current acquisition policy directives.

Design, generate, modernize, move data, and prove compliance—in one connected ecosystem.

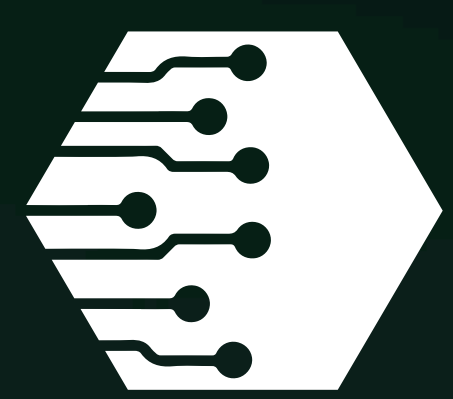

Governed to align with federal standards

Interoperable with fed IT, clouds, data stacks, and delivery pipelines

Replicate & scale models, insights, and patterns across agencies

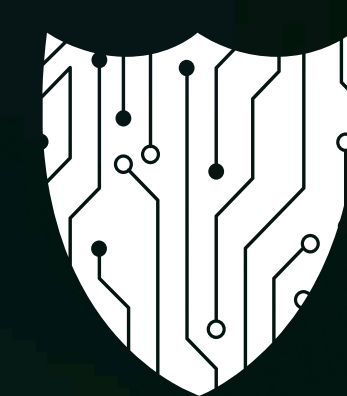

CONTINUUM
CONNECT

Migrate Your Past to Your Future.

Accelerate your transition to modern architecture with automated cloud & data migration performed in minutes not months.

90% labor reduction

43% less data errors

CONTINUUM
SECURE

Achieve Continuous Audit Readiness.

Automate cyber compliance and ATO tasks with this patented tech; eliminating manual work and accelerating the path to continuous compliance.

62% faster ATOs

\$250K saved per audit

Procure today.
Deliver impact tomorrow.

Modernize.
Build. Secure.
